8. Soils	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Revegetation	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10. Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Purpose of Inspection:

Routine inspection while in the area.

Inspection Summary:

Upon arrival at the site, it was noted that a new scale and scale house have been constructed along the western access road. The scale was sitting on a concrete pad and had concrete approaches. Inspectors were told that this was added in January of 2007 (the Division had not received an amendment for this structure).

The disturbed area was surveyed with the GPS to determine total acreage disturbed. Visually it appeared that he was close, if not over the permitted disturbed area.

Several barrels labeled 'Used Motor Oil' were located near the center of this project. One of the barrels had a small amount of oil spilled on the top and surrounding ground. Mr. Martin had indicated that MSHA had conducted an inspection last week and had them remove the barrels from where they had originally been stored (with spill containment) due to close proximity of welding equipment (this was in violation of MSHA regulation). Mr. Worth indicated that the barrels would be removed from the site by the end of the day.

Photos were taken to document site conditions.

Conclusions and Recommendations:

Notice of Violation # MN-07-01-01 was issued for installing the scales and scale house (not following the approved plan) prior to submitting and amendment and receiving approval from the Division. Abatement requires the operator to submit an amendment (w/map showing location) by April 10, 2007.

Inspection Date: March 20, 2007

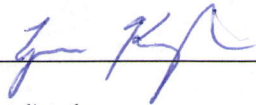

Page 2 of 2

M/043/017

The results of the GPS survey showed a total of 20.18 acres disturbed. Not all of the permitted area is disturbed, but there are small areas outside the permit area that have been disturbed. During the inspection, Mr. Worth recognized that he was close to the disturbance limit of his permit and discussed plans to add about 20 acres to his permit. It is recommended that a letter go to Mr. Worth requesting this amendment by May 30, 2007, and that his amendment includes all the current disturbed areas.

Continue to monitor this site when in the area.

Inspector's Signature

A handwritten signature in blue ink, appearing to be "L. K. P.", is written over a horizontal line.
